Hi Mike,

Thanks again for taking the time to meet with me and my colleagues at USAID last month. I'm attaching, for your consideration, a draft document that provides an exploratory look at what a more formal partnership between USAID and Facebook might look like on content policy issue in contexts where USAID is working. It is a product of our team's thinking following our meeting that seeks to align existing Facebook and USAID initiatives so that we may increase our impact in creating resilient information ecosystems in the countries where we work.

Please let us know your thoughts about the feasibility and appropriateness of such a partnership and the suggested terms from Facebook's side.

Many thanks in advance. I look forward to your response.

Best,
Josh
