For your Flash Clearance- USAID Feedback for Information Integrity & Resilience (IIR) IPC

fqiyam@usaid.gov Fereena Qiyam Wednesday, May 12, 2021 at 8:28:15 AM Eastern Daylight Time
To: jowalsh@usaid.gov John Walsh

Good morning Johnny,

Please provide your clearance on IIR IPC Action Memo and Information Integrity & Resilience (IIR) IPC.

I was told this is due ASAP, so your expeditious clearance is requested.

Best,
Fereena

Thanks - will get to them as soon as I can, but have a lot of meetings on the calendar today...is there any sense of the specific timeline for either?

These were actually due last week, so Today COB should be fine. I will move it forward to Karl once you clear.

Best,
Fereena

I clear on this - had basically just one comment which it looks like the team already fixed in the doc. Thanks!

Clearance headed your way on the MDM (misinformation/disinformation/malinformation) IPC process. Just wanted to flag that I'd be keen to stay really engaged on it, either repping DDI or in tandem with you (whichever you prefer). So crucial to the larger DRG effort, and an area in which I'm generally hoping USAID can provide a lot of the intellectual firepower.

Sounds great. I am happy for you to take/keep the lead. By the way, if something needs to get to me to clear, I greatly appreciate these sort of informal head's up emails. We also have a more formal system, with a tracker that is maintained by the DDI front office admin. management staff. They can be reached via the collective email "DDI.Correspondence@usaid.gov"

N.B. The good news is that almost every USAID office or bureau has a similar official tracking system with collective email addresses. The not so good news is that there is no uniform protocol or naming system, so each corresponding collective email box has a different name: "DDI.Correspondence@usaid.gov" "GCtaskermaillist@usaid.gov" and "aid.estaskermaillistusaid@usaid.gov" for the Agency's Executive Secretariat., just to name a few. Sigh.

Thanks on all counts - will keep you updated, and attempt to learn the tracking system as fast as I can.
